SUBJECT INDEX TO VOLUME 90

ABDOMEN, diagnosis of disease in, Porphyria, consideration in surgical diagnosis, 716
Abnormalities and deformities, congenital, Surgical treatment of complete transposition of aorta and pulmonary artery, 1; congenital, Closure of patent ductus by suture-ligation technique, 91; Foot problems in children, 461; Congenital, arteriovenous fistulas in mandible, 543; Osteotomy for correction of deformity in Marie-Struempell arthritis, 552; congenital, Factors involved in management of surgical complications of polycystic disease of kidney, report of 21 cases, 725
Acetylcholine, Chloride output rate of human stomach in healthy subjects and ulcer patients, effects of vagotomy and, studies by dye dilution technique, 155
Adamantinomas, Craniopharyngiomas, pituitary, 591
Adenocarcinomas, Carcinoma of jejunum and ileum exclusive of carcinoid tumors, 513
Adenolymphoma, papillary cystadenoma lymphomatosum, 746
American College of Surgeons, Clinical Congress, Preliminary program for 36th, Statler Hotel, Boston, October 23 to 27, 1950, 641; 766
American Red Cross, Blood transfusion organization, 353
Ampulla of Vater, Premalignant lesions of, 21
Anatomy, of hernial regions—III, obturator hernia and general considerations, 31; Esophageal arteries, anatomic study of 150 specimens, 234; human, Illustration of, before Vesalius, 500; Surgical considerations in mobilizing hepatic flexure, 623
Anesthesia, Experiences with cardiac arrest, 108; spinal, Use of methoxamine for maintenance of circulation during, 659
Aneurysm, intracranial, Clinical method for recording internal carotid pressure, significance of changes during carotid occlusion, 327; Regional heparinization in vascular surgery, 406
Angiocardiography, in thoracic surgery, 45
Antibiotics, Chloromycetin in surgical infections, 583
Anus, Postoperative anal stenosis, 231; Streptomycin in treatment of tuberculosis of rectosigmoid region and, 681
Aorta, Surgical treatment of complete transposition of, and pulmonary artery, 1; Studies of development and nature of hypertension in experimental coarctation of, 193
Art, medical, Illustration of human anatomy before Vesalius, 500
Arteries, pulmonary, Surgical treatment of complete transposition of aorta and, 1; femoral, Arterial anastomosis in experimental arterial injury, 77; Closure of patent ductus by suture-ligation technique, 91; pulmonary, Experimental use of homologous vein grafts to circumvent pulmonic valves, 204; Esophageal, anatomic study of 150 specimens, 234; carotid, Clinical method for recording internal carotid pressure, significance of changes during carotid occlusion, 327; Collateral circulation, natural and artificial, 385; Experimental hepatic-portal arteriovenous anastomoses, 473; Arterial homografts—I, fate of preserved aortic grafts in dog, 568
Arteriography, Cerebral, ed. 248
Arthritis, Marie-Struempell, Osteotomy for correction of deformity in, 552
Arthroplasty, Use of capsulectomy and, for limitation of finger motion, 103
Astragalus, Fractures of tarsal and metatarsal bones, 735

BEESWAX, Effects of injection of penicillin, peanut oil and, separately and in combination, upon nerve and muscle, experimental study, 39
Bile ducts, Choledochostomy—advantages of modified T tube, 295
Billroth I pylorectomy, Hypertrophy of pyloric muscle in adult, experiences with conservative and radical surgical treatment, 535
Bladder, Construction of substitue, and urethra, 752
Blood, changes, Hematological changes and iron metabolism of normal pregnancy, 320; bank, Blood transfusion organization, 353; Collateral circulation, natural and artificial, 385; circulation, End result study of intracapsular fractures of neck of femur, 393; coagulation, Significance of different methods for prothrombin estimation and their relative values, 423; Changes in rate of flow of venous, in leg during pregnancy, measured with radioactive sodium, 481; Use of methoxamine for maintenance of circulation during spinal anesthesia, 659; volume determinations in surgery, analysis of 100 cases, 686; circulation, Studies on burns—V, experimental study of effect of heparinization and gravity on tissue loss resulting from third degree burns, 722
Blood pressure, Studies of development and nature of hypertension in experimental coarctation of aorta, 193; Collateral circulation, natural and artificial, 385; high, Surgical treatment of hypertension, ed. 497; Effect of adrenergic blockade with benzodioxane derivative, 933F, on hypertension of toxemia of pregnancy, 655; Use of methoxamine for maintenance of circulation during spinal anesthesia, 659
Blood transfusion, organization, 353; Myocardial intolerance to excessive, 455
Blood vessels, surgery, Surgical treatment of complete transposition of aorta and pulmonary artery, 1; Angiocardiography in thoracic surgery, 45; Cerebral arteriography, ed. 248; Regional heparinization in vascular surgery, 406; bank, Arterial homografts—I, fate of preserved aortic grafts in dog, 568
Bone, lengthening, shortening, Equalization of leg lengths, ed. 119; sarcoma, osteogenic spindle cell, plasma cell, primary tumors of cranial, 602; tumors, Benign, 697
Book Shelf, Challenge of chance, 251; Illustration of human anatomy before Vesalius, 500
Brain, Cerebral arteriography, ed. 248; tumors, ed. 761
Breast, carcinoma of, Attempt to evaluate radical and palliative treatment of breast carcinoma, 413
Burns, x-ray, Histopathologic study of radiation injuries of skin, 335; Studies on, V, experimental study of effect of heparinization and gravity on tissue loss resulting from third degree, 722

CANCER, facial, Combined radical cervicofacial procedures for primary, 16; Premalignant lesions of ampulla of Vater, 21; Investigation of "false positive" vaginal smears, 221; of stomach, Total gastrectomy for all patients with operable, ed. 246; early diagnosis, Pregnancy following cervix cancer, report of 2 cases treated in preinvasive stage, 298; early, Cytologic diagnosis of malignant disease in general office practice, 451; gastric, Identification of regional lymph nodes by means of vital staining dye during surgery of, 561
Capsulectomy, Use of, and arthroplasty for limitation of finger motion, 103

Carbohydrate, parenteral intake, Amount of, required to prevent ketonuria in patients after operation, 349
Carbon dioxide, Optimal rate flows of, in clinical kymographic uterotubal insufflation, 275
Carcinoid tumors, Carcinoma of jejunum and ileum exclusive of, 513
Carcinoma, of cervix, statistical evaluation of 1,938 cases and results of treatment, 135; of breast, Attempt to evaluate radical and palliative treatment of, 413; of jejunum and ileum exclusive of carcinoid tumors, 513; of rectum, rectosigmoid, Appraisal of operation of anterior resection for, 525
Cardiac arrest, Experiences with, 108
Cardiovascular disease, Surgical treatment of hypertension, ed. 497
Castration, Attempt to evaluate radical and palliative treatment of breast carcinoma, 413
Cesarean section, at Chicago Lying-in Hospital—1931 to 1949, 443
Chicago Lying-in Hospital, Cesarean section at, 1931 to 1949, 443
Children, Parotid tumors in, 307; Foot problems in, 461
Chloride output rate, of human stomach in healthy subjects and ulcer patients, effects of vagotomy and acetylcholine, studies by dye dilution technique, 155
Chlorobutanol, Action of aqueous corpus luteum extract upon uterine activity, 372
Chloromycetin, in surgical infections, 583
Cholecystectomy, Surgical treatment of acute cholecystitis, 643
Cholecystostomy, Surgical treatment of acute cholecystitis, 643
Choledochostomy, advantage of modified T tube, 295
Choreoathetosis, Surgical treatment of abnormal involuntary movements, ed. 376
Circulation, Collateral, natural and artificial, 385
Coarctation, of aorta, Studies of development and nature of hypertension in experimental, 193
Colon, Management of multiple polyposis of, 547
Contracture, Volkmann's ischemic, ed. 244
Corpus luteum, extract, Action of aqueous, upon uterine activity, 372
Craniopharyngiomas, pituitary adamantinomas, 591
Cranium, Craniopharyngiomas, pituitary adamantinomas, 591; Primary tumors of cranial bones, 602
Cyanosis, Consideration of causes of death following operation for congenital heart disease of cyanotic type, 60
Cysts, Gas, of intestines, report of 2 cases, 215
Cytology, Histopathologic study of radiation injuries of skin, 335; Cytologic diagnosis of malignant disease in general office practice, 451

DIAGNOSIS, Cytologic, of malignant disease in general office practice, 451; differential, Porphyria, consideration in surgical, 716
Dicumarol, Further report on, prophylaxis against venous thrombosis in women undergoing surgery, 439
Ductus arteriosus, patent, Closure of, by suture-ligation technique, 91

EAR, Combined radical cervicofacial procedures for primary facial cancer, 16; Acoustic tumors, ed. 379
Edema, Effect of, of tensile strength of incised wound, 666
Embolism, Regional heparinization in vascular surgery, 406
Embryology, development of kidney, Factors involved in management of surgical complications of polycystic disease of kidney, report of 21 cases, 725
Endocrine glands, Pituitary adrenocorticotropic hormone (ACTH) and estradiol benzoate (progynon B) in treatment of gingivitis with endocrine imbalance, 580
Epinephrine, Effect of, and norepinephrine on contractions of human uterus in labor, 649
Esophagus, Esophageal arteries, anatomic study of 150 specimens, 234
Estradiol benzoate (progynon B), Note on use of pituitary adrenocorticotropic hormone (ACTH) and, in treatment of gingivitis associated with endocrine imbalance, 580
Extremities, Volkmann's ischemic contracture, ed. 244

FACE, cancer of, Combined radical cervicofacial procedures for primary, 16
Fallopian tubes, Optimal rate flows of carbon dioxide in clinical kymographic uterotubal insufflation, 275
Femur, Fracture of neck of, End result study of intracapsular, 393; Oblique nailing of femoral neck fractures, 305
Fetus, mortality, Study of face presentation in normal mature fetus, 199; at Chicago Lying-in Hospital, 1931–1949, 443
Fingers, Use of capsulectomy and arthroplasty for limitation of, motion, 103
Fistula, hepatic-portal arteriovenous, Experimental, anastomoses, 473; arteriovenous, Congenital, in mandible, 543
Foot, problems in children, 461; Fractures of tarsal and metatarsal bones, 735
Forearm, Volkmann's ischemic contracture, ed. 244
Fracture, of ribs—logical treatment, 129; of femoral neck, Oblique nailing of, 305; of femoral neck, End result study of intracapsular, 393; of tarsal and metatarsal bones, 735
Frostbite, Studies in experimental—V, further evaluation of early treatment, 430

GALL bladder, disease, Surgical treatment of acute cholecystitis, 643
Gastrectomy, Total, for all patients with operable cancer of stomach, ed. 246
Gastrointestinal tract, Gas cysts of intestines, report of 2 cases, 215
Gingivitis, Note on use of pituitary adrenocorticotropic hormone (ACTH) and estradiol benzoate (progynon B) in treatment of, associated with endocrine imbalance, 580
Gland, retroperitoneal, Thoracoabdominal approach for, dissection, its application to testis tumors, 486
Glucose, Amount of carbohydrate required to prevent ketonuria in patients after operation, 349
Grafts, Experimental use of homologous vein, to circumvent pulmonic valves, 204 Gynecology, Surgical emergencies in, and obstetrics, 557

HEART, blood supply, Surgical treatment of complete transposition of aorta and pulmonary artery, 1; disease, Consideration of causes of death following operation for congenital, of cyanotic type, 60; Experiences with cardiac arrest, 108; Surgical treatment of constrictive valvular disease of, 175; Experimental use of homologous vein grafts to circumvent pulmonic valves, 204; Technique for excision of portions of entire thickness of ventricles of, experimental study, 282
Hemorrhoids, Mucosa and skin saving technique of hemorrhoidectomy, 713
Heparin, Regional heparinization in vascular surgery, 406; Studies in experimental frostbite—V, further evaluation of early treatment, 430; Studies on burns—V, experimental study of effect of heparinization and gravity on tissue loss resulting from third degree burns, 722

Hepatic flexure, Surgical considerations in mobilizing, 623
Hernia, inguinal, femoral, obturator, Anatomy of hernial regions—III, obturator, and general considerations, 31; Inguinal, absence of uterus, and pseudohermaphroditism, 96
Histopathology, Histopathologic study of radiation injuries of skin, 335
Homografts, Arterial,—I, fate of preserved aortic grafts in dog, 568
Hormone therapy, Attempt to evaluate radical and palliative treatment of breast carcinoma, 413
Hyaluronidase, Lecithinase and, in experimental intestinal obstruction, 171; Wound healing, cutaneous and serum inhibition of, experimental study, 269
Hypertension, Studies of development and nature of, in experimental coarctation of aorta, 193; Surgical treatment of, ed. 497

ILEUM, Carcinoma of jejunum and, exclusive of carcinoid tumors, 513
Infections, surgical, Chloromycetin in, 583
Instruments and apparatus—valvulotome, Surgical treatment of constrictive valvular disease of heart, 175; kymograph, uterotubal insufflation apparatus, Optimal rate flows of carbon dioxide in clinical kymographic uterotubal insufflation, 275; modified T tube, Choledochostomy, advantages of, 295; mercury manometer, Clinical method for recording internal carotid pressure, significance of changes during carotid occlusion, 327; kymograph, Action of aqueous corpus luteum extract upon uterine activity, 372; Brinkerhoff rectal speculum, Mucosa and skin saving technique of hemorrhoidectomy, 713
Insufflation, uterotubal, Optimal rate flows of carbon dioxide in clinical kymographic uterotubal insufflation, 275
Intestines, obstruction, Lecithinase and hyaluronidase in experimental, 171; Gas cysts of, report of 2 cases, 215
Iron, maternal, Hematological changes and, metabolism of normal pregnancy, 320
Irradiation, Attempt to evaluate radical and palliative treatment of breast carcinoma, 413

JEJUNUM, Carcinoma of, and ileum exclusive of carcinoid tumors, 513
Joints, Use of capsulectomy and arthroplasty for limitation of finger motion, 103

KETONURIA, Amount of carbohydrate required to prevent, in patients after operation, 349
Kidney, Factors involved in management of surgical complications of polycystic disease of, report of 21 cases, 725
Knee, surgery, Repair of collateral ligaments of, 291

LABOR, Study of face presentation in normal mature fetus, 199; Effect of epinephrine and norepinephrine on contractions of human uterus in, 649
Lecithinase, and hyaluronidase in experimental intestinal obstruction, 171
Leg, Arterial anastomosis in experimental arterial injury, 77; Equalization of, lengths, ed. 119; Changes in rate of flow of venous blood in, during pregnancy, measured with radioactive sodium, 481
Ligaments, collateral, Repair of, of knee, 291
Liver function, Experimental hepatic-portal arteriovenous anastomoses, 473
Liver necrosis, Complications of late pregnancy in rabbits induced by experimental placental trauma, 613
Lungs, blood supply, Surgical treatment of complete transposition of aorta and pulmonary artery, 1; Experimental use of homologous vein grafts to circumvent pulmonic valves, 204
Lymph nodes, Identification of regional, by means of vital staining dye during surgery of gastric cancer, 561

MANDIBLE, Congenital arteriovenous fistulas in, 543
Medicine, history of, Challenge of chance, 251; history, Illustration of human anatomy before Vesalius, 500
Metabolism, iron, Hematological changes and, of normal pregnancy, 320
Metaplasia, On occurrence of epithelium and glands of intestinal type in gastric mucosa, 86
Methoxamine, Use of, for maintenance of circulation during spinal anesthesia, 659
Mitral stenosis, Surgical treatment of constrictive valvular disease of heart, 175
Mortality, fetal, Study of face presentation on normal mature fetus, 199; fetal and maternal, Cesarean section at Chicago Lying-in Hospital—1931 to 1949, 443
Movement, abnormal involuntary, Surgical treatment of, ed. 376
Mucosa, gastric, On occurrence of epithelium and glands of intestinal type in, 86
Muscle, necrosis of, Effects of injection of penicillin, peanut oil and beeswax, separately and in combination, upon nerve and, experimental study, 39; involuntary movement of, Surgical treatment of abnormal, ed. 376
Myocardial intolerance, to excessive blood transfusion, 455

NECK, Combined radical cervicofacial procedures for primary facial cancer, 16
Nerve, necrosis of, Effects of injection of penicillin, peanut oil and beeswax, separately and in combination, upon, and muscle, experimental study, 39; facial, Direct operative removal of benign mixed tumors of anlage origin in parotid region, with summary of parotid tumors in general, 257; eighth cranial, Acoustic tumors, ed. 379
933F, Effect of adrenergic blockade with benzodioxane derivative, on hypertension of toxemia of pregnancy, 655
Nitrogen, metabolism, Parenteral nutrition with human serum albumin as source of protein in early postoperative period, 151
Norepinephrine, Effect of epinephrine and, on contractions of human uterus in labor, 649
Nutrition, Parenteral, with human serum albumin as source of protein in early postoperative period, 151

OBSTETRICS, Study of face presentation in normal mature fetus, 199; Cesarean section at Chicago Lying-in Hospital—1931 to 1949, 443; Surgical emergencies in gynecology and, 557
Ovary, cysts, Surgical emergencies in gynecology and obstetrics, 557

PANCREAS, Premalignant lesions of ampulla of Vater, 21
Papanicolaou smear, Pregnancy following cervix cancer, report of 2 cases treated in preinvasive stage, 298
Papilloma, Premalignant lesions of ampulla of Vater, 21
Parotid gland, tumor, Direct operative removal of benign mixed tumors of anlage origin in, region, with summary of, in general, 257; in children, 307
Peanut oil, Effects of injection of penicillin, and beeswax, separately and in combination, upon nerve and muscle, experimental study, 39

Pelvis, male, Anatomy of hernial regions—III, obturator hernia and general considerations, 31
Penicillin, Effects of injections of, peanut oil and beeswax, separately and in combination, upon nerve and muscle, experimental study, 39
Peptic ulcer, Chloride output rate of human stomach in healthy subjects and ulcer patients, effects of vagotomy and acetylcholine, studies by dye dilution technique, 155
Pericardium, surgery, Technique for excision of portions of entire thickness of ventricles of heart, experimental study, 282
Pharynx, Craniopharyngiomas, pituitary adamantinomas, 591
Pituitary adrenocorticotropic hormone (ACTH), Note on use of, and estradiol benzoate (progynon B) in treatment of gingivitis with endocrine imbalance, 580
Pituitary body, Craniopharyngiomas, pituitary adamantinomas, 591; tumors, ed. 629
Placenta, trauma, Complications of late pregnancy in rabbits induced by experimental, 613
Polyposis, of colon, Management of multiple, 547
Porphyria, consideration in surgical diagnosis, 716
Practice, general office, Cytologic diagnosis of malignant disease in, 451
Pregnancy, following cervix cancer, report of 2 cases treated in preinvasive stage, 298; Hematological changes and iron metabolism of normal, 320; Changes in rate of flow of venous blood in leg during, measured with radioactive sodium, 481; Complications of late, in rabbits induced by experimental placental trauma, 613; normal or toxemic, Effect of adrenergic blockade with benzodioxane derivative, 933F, on hypertension of, 655
Presentation, face, Study of, in normal mature fetus, 199
Pressure, internal carotid, Clinical method for recording, significance of changes during carotid occlusion, 327
Prostate, Construction of substitute bladder and urethra, 752
Protein, Parenteral nutrition with human serum albumin as source of protein in early postoperative period, 151
Prothrombin estimation, Significance of different methods for, and their relative values, 423
Pseudohermaphroditism, Inguinal hernias, absence of uterus, and, 96
Pylorus, Hypertrophy of pyloric muscle in adult, experiences with conservative and radical surgical treatment, 535

RADIATION injuries, Histopathologic study of, of skin, 335
Radiation sensitivity, Carcinoma of cervix, statistical evaluation of 1,938 cases and results of treatment, 135
Rectosigmoid, cancer of, Appraisal of operation of anterior resection for carcinoma of rectum and, 525; Streptomycin in treatment of tuberculosis of, region and anus, 681
Rectum, cancer of, Appraisal of operation of anterior resection for, and rectosigmoid, 525; Construction of substitute bladder and urethra, 752
Ribs, Fracture of, logical treatment, 129

SALIVARY glands, Adenolymphoma, papillary cystadenoma lymphomatosum, 746
Sarcoma, osteogenic, spindle cell, plasma cell, Primary tumors of cranial bones, 602
Scaphoid, Fractures of tarsal and metatarsal bones, 735
Scoliosis, Experimental, role of epiphysis, 672
Serum, inhibitor, Wound healing, cutaneous and, of hyaluronidase, experimental study, 269
Serum albumin, human, Parenteral nutrition with, as source of protein in early postoperative period, 151
Shock, surgical, Blood volume determinations in surgery, analysis of 100 cases, 686
Shoes, Foot problems in children, 461
Skin, Histopathologic study of radiation injuries of, 335
Smear, vaginal, Investigation of "false positive," 221
Sodium, radioactive, Changes in rate of flow of venous blood in leg during pregnancy, measured with, 481
Spine, Osteotomy for correction of deformity in Marie-Struempell arthritis, 552; Intraspinal tumors, ed. 631; curvature, Experimental scoliosis—role of epiphysis, 672
Stenosis, anal, Postoperative, 231
Stomach, On occurrence of epithelium and glands of intestinal type in gastric mucosa, 86; Chloride output rate of human, in healthy subjects and ulcer patients, effects of vagotomy and acetylcholine, studies by dye dilution technique, 155; cancer of, Total gastrectomy for all patients with operable, ed. 246; Clinical and pathological studies of benign and malignant gastric ulcers, 359; Identification of regional lymph nodes by means of vital staining dye during surgery of gastric cancer, 561
Streptomycin, in treatment of tuberculosis of rectosigmoid region and anus, 681
Surgery, technique, Closure of patent ductus by suture-ligation technique, 91; complications and preparedness to meet emergencies, Experiences with cardiac arrest, 108; versus radiation, Carcinoma of cervix, statistical evaluation of 1,938 cases and results of treatment, 135; postoperative care, Parenteral nutrition with human serum albumin as source of protein in early postoperative period, 151; plastic, Postoperative anal stenosis, 231; plastic, Direct operative removal of benign mixed tumors of anlage origin in parotid region, with summary of parotid tumors in general, 257; postoperative care, Amount of carbohydrate required to prevent ketonuria in patients after operation, 349; technique, Attempt to evaluate radical and palliative treatment of breast carcinoma, 413; preoperative care, Further report on dicumarol prophylaxis against venous thrombosis in women undergoing, 439; preoperative and postoperative care, Myocardial intolerance to excessive blood transfusion, 455; technique, Thoracoabdominal approach for retroperitoneal gland dissection, its application to testis tumors, 486; general, Surgical emergencies in gynecology and obstetrics, 557; technique, Identification of regional lymph nodes by means of vital staining dye during, of gastric cancer, 561; Surgical considerations in mobilizing hepatic flexure, 623; preoperative care, operative risk, Blood volume determinations in, analysis of 100 cases, 686; technique, Mucosa and skin saving technique of hemorrhoidectomy, 713
Sympathectomy, Studies in experimental frostbite—V, further evaluation of early treatment, 430; Surgical treatment of hypertension, ed. 497

TENDON, transplantation, Repair of collateral ligaments of knee, 291
Tensile strength, Effect of edema of, of incised wound, 666
Testis, tumors, Thoracoabdominal approach for retroperitoneal gland dissection, its application to, 486
Tests, cervical cytological, Pregnancy following cervix cancer, report of 2 cases treated in preinvasive stage, 298
Tetraethyl ammonium chloride, Studies in experimental frostbite—V, further evaluation of early treatment, 430

Thorax, surgery, Angiocardiography in, 45
Thromboplastin extract injection, Complications of late pregnancy in rabbits induced by experimental placental trauma, 613
Thrombosis, Further report on dicumarol prophylaxis against venous, in women undergoing surgery, 439
Tissue loss, Studies on burns—V, experimental study of effect of heparinization and gravity on tissue loss resulting from third degree burns, 722
Tremor, Surgical treatment of abnormal involuntary movements, ed. 376
Tuberculosis, Streptomycin in treatment of, of rectosigmoid region and anus, 681
Tumor, mixed, Direct operative removal of benign, of anlage origin in parotid region, with summary of parotid, in general, 257; Parotid, in children, 307; Acoustic, ed. 379; Craniopharyngiomas, pituitary adamantinomas, 591; hemangioma, osteoma, myeloma, Primary, of cranial bones, 602; adenoma, Pituitary, ed. 629; Intraspinal, ed. 631; Benign, of bone, 697; Brain, ed. 761

ULCERS, gastric, Clinical and pathological studies of benign and malignant, 359
Ureter, transplantation, Construction of substitute bladder and urethra, 752
Urethra, Construction of substitute bladder and, 752
Urine, acetone, Amount of carbohydrate required to prevent ketonuria in patients after operation, 349
Uterus, Inguinal hernias, absence of, and pseudohermaphroditism, 96; Optimal rate flows of carbon dioxide in clinical kymographic uterotubal insufflation, 275; activity of, Action of aqueous corpus luteum extract upon, 372; Effect of epinephrine and norepinephrine on contractions of human, in labor, 649
Uterus cervix, Carcinoma of, statistical evaluation of 1,938 cases and results of treatment, 135; Investigation of "false positive" vaginal smears, 221; Pregnancy following, cancer, report of 2 cases treated in preinvasive stage, 298

VAGINA, Investigation of "false positive" vaginal smears, 221
Vagotomy, Chloride output rate of human stomach in healthy subjects and ulcer patients, effects of, and acetylcholine, studies by dye dilution technique, 155
Valves, pulmonic, Experimental use of homologous vein grafts to circumvent, 204
Valvulectomy, Surgical treatment of constrictive valvular disease of heart, 175
Vasodilatation, Studies in experimental frostbite—V, further evaluation of early treatment, 430
Vein, grafts, Experimental use of homologous, to circumvent pulmonic valves, 204; portal, Experimental hepatic-portal arteriovenous anastomoses, 473
Ventricles, excision, Technique for excision of portions of entire thickness of, of heart, experimental study, 282
Vesalius, Illustration of human anatomy before, 500
Volkmann's contracture, ischemic, ed. 244

WOUND, healing, cutaneous and serum inhibition of hyaluronidase, experimental study, 269; incised, Effect of edema of tensile strength of, 666
